SUMMARY

Game & System Designer with a strong background in Mathematics, leveraging analytical thinking to design innovative game mechanics and solve complex technical problems. Experienced in Godot (Gdscript) and Unity (C#), managed independent projects end-to-end, delivering each on schedule and within scope. Skilled in developing core gameplay systems, including turn-based logic, inventory management, and character progression trees.

TECHNICAL SKILLS

- **Engines:** Godot, Unity
- **Programing Languages:** Gdscript, C#
- **Tools & Methodologies:** Git, GitHub, Aseprite, VS Code, Blender, Unit Testing, Agile/Scrum Methodologies
- **Core Competencies:** Gameplay Mechanics Design, Turn-Based Systems, Inventory Management, Character Progression, Performance Optimization, Debugging, UI/UX Implementation

EXPERIENCE

CBUBKFK | Celal Bayar University | Club President | 2024 - 2026

- President of the Fantasy And Fiction Club (2018-2020). Led a team of 10 members in organizing weekly workshops, TTRPG sessions, card game competitions, and played board games resulting in a 30% increase in club membership and a successful partnership with multiple board game producers.
- Secured sponsorships and funding for club activities. Implemented strategies to increase member engagement and retention. Contributed ideas to improve club's performance and visibility.

Community Event Organizer | Volunteer | Ongoing

- I host and lead team based recurring events that require immense communication, creative problem solving and strict time management.

EDUCATION

B.S. in Mathematics: Celal Bayar University, Turkey
Certificate, Full Stack Web Development: FreeCodeCamp
Certificate, Unity Essentials Pathway: Unity
Certificate, JavaScript Algorithms & Data Structures: FreeCodeCamp
